

# **NUHN** INDUSTRIES LTD

## **OIL VAC**

**THE MOST EFFICIENT WAY TO SERVICE RIGS**

### **FAST, VERSATILE AND EFFECTIVE**

The **Nuhn Oil Vac** has combined the Nuhn design standard of strength and simplicity with innovative air systems and the Wallenstein oil injected pump.

### **SIMPLE. RUGGED. DEPENDABLE.**

The **Nuhn Oil Vac** is an industrial level product. With the heaviest axles and spindles on the market, it is ideal for today's larger operations. With the long tongue, the tractor has more control over the tank. It puts less strain on the draw bar, allows for better turning and rear visibility. The **Nuhn Oil Vac** is the workhorse of the industry.

*A Family Business Since 1902*

**EFFICIENCY IS AN ASSET...**

## **NUHN OIL VAC**

### **FEATURES**

- **Nuhn Oil Vac** heavy undercarriage, axle and long tongue for superior handling
- **Nuhn** air system combines muffler, air cleaner, oil catch, automatic air reverse, and exhaust under tank, away from operator
- Heavy gauge steel tank with exterior baffles and double welded seams
- Balanced air traps for fast pumping
- Full length internal auger
- Large, 5" bubble type sight gauge on tank
- Vacuum pressure gauge
- A pressurized unloading system
- High flotation 30.5 x 32 tires
- A hydraulic spread valve with a large clean-out door
- Vacuum pump is protected by a two stage trap system
- Nuhn Vacuum / Pressure Pump
  - Oil injection system
  - Heavy vanes for industrial applications
