## The **Secret Weapon** for Portable Sanitation Service

### Here's Why:

- **DESIGN** Forget complicated vacuum pump designs. *Simply Better* design for lower maintenance cost.
- **AIRFLOW** Large displacement means high performance even at low RPM operation.
- **INSPECTION** Look inside quickly, no bearings to pull.
- **EFFICIENCY** Close machining for high vacuum levels.
- **LONG LIFE** Extra wide vanes for extra long vane life.
- **EXPERIENCE** With 40 Years of quality vacuum technology development.

**If** you appreciate **heavy duty, low RPM** pumps that **last and last** ... Then try a Wally Pump, quite possibly the Industry's Best Kept Secret ... **now you know!**

**80+ CFM**

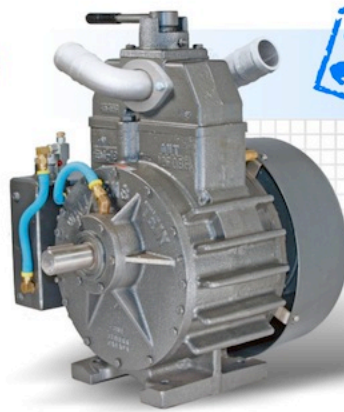

- Clockwise or Counter-Clockwise Rotation
- Available w/ Hydraulic Drive Flange Kit
- Angle Drive, Belt Drive, or Engine Drive
- Aluminum Swivel Elbows for easy hookup
- Offload Valve to switch from Vac. to Pressure
- Vacuum/Pressure or Mechanical Oiler System
